REPORT 1984

1984
REPORT
OF

THE ALBERTA SOCIAL CARE
FACILITIES REVIEW COMMITTEE

Submitted to

THE HONOURABLE DR. NEIL WEBBER
MINISTER OF SOCIAL SERVICES
AND
COMMUNITY HEALTH

January 1 to December 31, 1984

Alberta
SOCIAL CARE FACILITIES
REVIEW COMMITTEE

4th Floor, Essex Building, 10707 - 100 Avenue, Edmonton, Alberta, Canada T5J 3M1 403/427-3010

In Replying Please Quote:

March 15, 1985

The Honourable Dr. Neil Webber
Minister of Social Services
and Community Health
Room 424, Legislature Building
109 Street and 97 Avenue
Edmonton, Alberta
T5K 2B6

Dear Dr. Webber:

On behalf of the Social Care Facilities Review Committee, I have the honour to provide you with this report covering the activities of the Committee for the calender year of 1984.

During the year we made 780 visits to social care facilities in Alberta. Since the Committee was established in June of 1980 2,502 visits have been made.

Yours truly,

Dr. David J. Carter, Chairman
MLA, Calgary-Egmont

/mc

ACKNOWLEDGEMENT

The Committee wishes to acknowledge with thanks and appreciation the many pleasant welcomes it has received during the year from operators of facilities and staff members. This is gratifying and encouraging since our visits are generally made in an unannounced manner. During these visits, which are made at a variety of times, we have seen the important work and services being provided for persons in need and were favourably impressed with the patience and dedication of the many people involved.

We extend thanks to associations, agencies, boards, administrations, employees and volunteers who have participated in providing care, training, guidance and services to so many people with special problems and needs.

ESTABLISHMENT OF THE COMMITTEE

The Social Care Facilities Review Committee Act was enacted by the Alberta Legislative Assembly during the 1980 spring session, assented to on May 22, 1980, and proclaimed June 10, 1980.

Twelve members from various parts of the province were appointed to the Committee by the Lieutenant Governor in Council. Dr. David J. Carter, MLA, was appointed Chairman.

ROLE OF THE COMMITTEE

The Committee is authorized by the Social Care Facilities Review Committee Act (1980) to visit social care facilities in the province for the purpose of reviewing and inspecting them and observing the manner in which they are operated.

The Committee visits social care facilities which are operated by, or receive their current operating funds or part of them, directly or indirectly, from the Government of Alberta.

The Committee may enter a facility at any reasonable hour to carry out a visit or an investigation.

MEMBERS OF THE COMMITTEE 1984

The members are appointed by the Lieutenant Governor in Council.

Chairman:	Dr. David J. Carter, MLA (Calgary - Egmont)	Calgary
Vice Chairman:	James Falconer	Edmonton
Members:	Glenna Bell	St. Albert
	Alan Hyland, MLA (Cypress)	Bow Island
	Jacqueline Orr Moore	Calgary
	Rita Nyback	Camrose
	Doreen Orman	Calgary
	Esther Rankin	St. Albert
	Carol Wilmot	Calgary
	George Wolstenholme	Nanton
	Susan Zukiwsky	St. Paul
New Appointments 1984:	Ute Davies	Calgary
Appointments Ended 1984:	Marion Cairns	Vegreville

The Committee wishes to express thanks and appreciation to Mrs. Marion Cairns who served so willingly and effectively during her terms of office as a Committee member.

Staff:

Executive Assistant:	Eleanor Stiles	Sherwood Park
Secretary:	Myra Colwell	Edmonton

LOCATION OF COMMITTEE OFFICE

The office of the Social Care Facilities Review Committee is located on the 4th Floor of the Essex Building, 10707 - 100 Avenue, Edmonton, Alberta, T5J 3M1. The hours of operation are from 8:15 a.m. to 4:30 p.m. Monday through Friday. The telephone number of the Committee is 427-3010, and is listed in the Edmonton telephone directory and in the telephone directory of the Government of Alberta. A telephone answering device is in place to take enquiries after hours or on weekends.

PAMPHLET AND POSTER

Pamphlets and posters have been made available to facilities under the Committee's jurisdiction and are supplied to the general public upon request. Posters outlining the mandate of the Committee and listing the phone number and address of the Social Care Facilities Review Committee are provided to be displayed in facilities where residents and staff may see them.

COMMITTEE ACTIVITIES

Meetings of the Committee are held regularly, usually at monthly intervals.

During 1984 eleven meetings were held including one Committee meeting in Lethbridge and one in Calgary.

Three Sub-Committee meetings were also held in Calgary and Edmonton.

ALBERTA ALCOHOL AND DRUG ABUSE COMMISSION

The Committee would like to commend the many helpful, understanding and patient individuals who are presently working with and caring for people with alcohol and drug abuse problems. The various public relations approaches through the media to make people aware of the problems have been well received and are highly appreciated.

However, there seems to be a serious need to have more programs and therapeutic sessions in regard to drug and alcohol abuse directed towards the younger population. These programs could be carried out in existing facilities.

CHILD WELFARE FACILITIES

It is clear that the Young Offenders Act has brought many needed changes to the Canadian Juvenile Justice System and we recognize that during this transitional period there may be difficulties and a period of adjustment.

In view of the fact that the Young Offenders Act is still in the process of implementation, the Committee feels that more time is needed before it can be adequately assessed. There appears to be a need for more adequate sharing of information between the Department of Social Services and the Solicitor General's Department regarding the young persons involved. It seems that the best interests of these young people would be better served by a freer and more extensive exchange of information.

DAY CARE

In the light of recent studies done on the effect of day care on young children, it is important that high standards for child care are implemented and maintained and that parents and the general public are made aware of the necessity and desirability of quality care. The Committee would like to commend the efforts of the Early Childhood Professional Workers Association and the Alberta Association for Young Children in their efforts to increase public awareness of what constitutes quality day care.

We support the concept of satellite family day homes as a viable alternative in the care of children and suggest that perhaps there are other models of care that might be examined to better serve the child and their parents; for example, day cares located in close proximity to or at the place of work.

The Committee has noticed with favour an increase in the number of policy and procedure manuals in day care centres. Those centres that have established a benefits package for their staff and have an on-going program for staff development should be commended. This appears to have had a positive effect on staff morale.

While the Committee is aware that many day care centres provide excellent care they also noted that some day care centres need

to be upgraded. In some day care centres, staff/child ratios have not been adhered to. In cases where nutritional values have been questionable the operator has been given suggestions where assistance may be obtained. Some day care centres have had to be reminded about the replacement of toys of inferior quality with toys that are safe and fully acceptable. The general standard of housekeeping and cleanliness has also deteriorated in some centres and this has been brought to their attention for improvement.

The Committee would like to recommend that current first aid and infant cardiopulmonary resuscitation be encouraged and supported for all staff; that there be first aid kits in every centre; that there be a minimum of one staff member who has been trained in Early Childhood Development in every day care; and that all of the above recommendations be considered as conditions of licensing.

MENTALLY HANDICAPPED

Although there are many handicapped people who benefit from a move from a dependent to a more independent life style, there are others who need long-term, stable, group home situations. For those moving to more independent living, there is need for additional support and follow-up. In certain parts of the province there is concern over the lack of appropriate and available programs for handicapped persons of 18 years of age and older.

MENTAL HEALTH

Generally members have found that mental health group homes visited by the Committee provide quality service and good care. However, there is an on-going need for additional, quality, approved homes in the Central Region and, especially, in the Edmonton Region.

NATIVE OPERATED FACILITIES

The Committee is pleased to see the establishment of Native Day Care Centres and Group Homes in the province. The Native Day Care Centres and Group Homes visited during the year were of a good quality.

The Committee held a meeting in Lethbridge in August, 1984 and invited a lecturer on native affairs to attend. A discussion on a wide range of native matters was most worthwhile and helpful to the Committee.

We encourage the native community to open additional Day Care Centres and Group Homes.

STAFF TRAINING

Many suggestions were made to operators of facilities and staff members regarding the importance and benefits of staff training and the upgrading of employee's skills. References were made to training courses for employees which are now available.

Policy and procedure manuals are now in more common use and an extension and continuation of this is recommended.

Some staff members have completed first aid training and cardiopulmonary resuscitation courses. It is recommended that first aid training and cardiopulmonary resuscitation courses be encouraged and supported in all social care facilities.

It is noted that some operators have provided benefit packages for employees, such as, employees health and welfare benefit packages. The operators believe this has been effective in reducing staff turnover.

WOMEN'S EMERGENCY SHELTERS

While we acknowledge the need and encourage the support of shelters for women and children in both rural and urban areas, we also recommend that consideration be given to examining alternative methods of dealing with this problem. Such as removing the batterer from the home or directing the batterer to seek treatment programs.

CONFERENCES/WORKSHOPS

Alberta Alcohol and Drug Abuse Commission Workshop - Grande Prairie

Battered Women Workshop - Edmonton

Canadian Association for the Mentally Retarded Annual Conference in New Brunswick

Open House - Vocational Rehabilitation and Research Institute - Calgary

Religious and Judicial Group addressed by Chairman - Calgary

Meeting with Residential Services Group Home Operators

Open House - Sheltered Workshop Society expansion - Edmonton

Meeting with a member of Management Audit Team

Meetings with various operators of social care facilities

COMPLAINTS AND ENQUIRIES

Numerous enquiries came to the Committee during the year. In each case information and assistance were provided where possible and referrals made to other offices for additional or special assistance. Seventeen complaints relating to the operation of facilities were received by Committee members and appropriate follow-up and action taken. A number of the complaints related to staff problems. The Committee requested that an audit be carried out on one facility where there were a number of complaints from staff about the management of the facility. Two other complaints from parents of clients are in the process of review and finalization.

The Committee was pleased to render assistance with the various complaints and concerns brought to its attention.

In the course of investigating complaints, facilities were visited and people interviewed. Corrective measures were taken where justified and follow-up visits made where necessary.

The Committee appreciates the cooperation received from the persons involved and the efforts made by operators to improve care, services, staffing policies, programs and operating procedures.
